

OUR PHONES ARE DRIPPING WITH BLOOD

They are produced with conflict minerals – valuable materials mined frequently in appalling conditions.

These minerals are necessary to produce numerous electronics and many other products we use every day.

European manufactures are not required to check if the raw materials they use are financing bloody conflicts.

But there is a chance to change it NOW!

The EU is preparing a regulation on conflict minerals but without your support it will be very weak.

Sign the petition and ask your friends to do so as well!
